

Stonecraft Group Unveils South India's First PGA-Standard Golf Course in Hyderabad

& Stonecraft Group will serve as a catalyst for the growth of golf in the region and inspire a new generation of golfers and PGA Professionals.”

This project further solidifies Stonecraft Group’s commitment to environmental sustainability. The company’s recent developments include Woods Shamshabad, an innovative residential project featuring a 100-acre, self-sustaining Miyawaki forest, positioning Stonecraft at the forefront of climate-responsive design. Building on Woods Shamshabad’s success, Stonecraft Group continues to lead by example with projects that are both eco-conscious and luxurious.

With over 17 years in the industry and a history of selling over a million square yards of land, Stonecraft’s emphasis on sustainable luxury in projects like this PGA-standard facility is attracting both local and international interest, reinforcing Hyderabad’s reputation as a progressive and environmentally committed city.

Kirthi Chilukuri
CEO & Managing Director of
Stonecraft Group

Stonecraft Group, a prominent biophilic real estate developer headquartered in Hyderabad, has announced the launch of a PGA-standard, America-branded golf facility, set to be the first of its kind in South India. In collaboration with AIVOT Golf & Sports Management Pvt Ltd, the exclusive golf facility and development partner of the PGA of America in India, the new course is poised to become a landmark destination for golf enthusiasts globally.

Spanning over 200 acres, this 18-hole championship course marks a significant milestone in India’s golfing landscape. Featuring a state-of-the-art clubhouse with luxurious amenities, fine dining options, and a professional golf shop, the facility promises a premium experience for both professional and amateur golfers. Adding to its appeal, a dedicated golf academy will offer PGA of America player development programs, led by PGA professionals.

“We are proud to bring this landmark PGA-branded golf facility to Hyderabad,” commented Kirthi Chilukuri, CEO & Managing Director of Stonecraft Group. “This project reflects our vision of integrating world-class infrastructure with sustainable development, set-

ting new benchmarks in luxury and recreation. The facility will also be the only golf facility in the world featuring a biophilic design with a Miyawaki forest, which enhances the natural splendor of Hyderabad’s iconic boulders and water bodies. This facility will elevate Hyderabad as a premier destination for sports, tourism, and investment, driving significant economic growth. We aspire to make this course a premier global destination for golfers, welcoming enthusiasts from around the world to experience all it has to offer.”

The project’s sustainable approach stands out, incorporating eco-friendly building practices and the Miyawaki Technique to preserve Hyderabad’s iconic natural landscapes while aligning with the region’s environmental goals. Stonecraft Group’s biophilic design integrates green building methods to reduce the facility’s environmental impact, underscoring the company’s dedication to eco-conscious development.

Sean Thornberry, Director of Global Development at PGA of America, highlighted the importance of this venture: “The PGA of America is excited to extend its legacy to India through this landmark project. We believe this facility and newfound partnership between AIVOT Golf
